## Short description:

Vision of a bicycle-friendly city and traffic planning.

## Description:

Various elements have been implemented to promote bicycle traffic. These include wide bicycle lanes, recessed stop lines for cars, flex parking spaces, green waves for bicycles, garbage cans and handrails. This model and other lesson-related examples can be found on the website of the Erasmus + project make in class: <https://www.makeinclass.eu> or the website of the Gymnasium Neubiberg <https://www.gymnasium-neubiberg.de>

If you can, please use the online documentation found at <http://www.youmagine.com/designs/bicycle-friendly-city-fahrradfreundliche-stadt> because those may have been updated. Also, there you can interact and provide praise and/or feedback.
