Short description:

a small and simple smartphone stand that acts as a keychain

Description:

Every time I want to see a video on my smartphone with friends, I have to keep it tedious or put it somewhere at an angle where it slips off again. That's why I had to have something that's small, simple and always there. There is an Android and an Apple version (engraved logo).

If you can, please use the online documentation found at <http://www.youmagine.com/designs/smartphone-stand-the-keychain> because those may have been updated. Also, there you can interact and provide praise and/or feedback.
