Christmas!

Description:

<https://youtu.be/gPfJgojDKNI> "A 3D Printed Animated Angel Christmas Tree Topper." is our 2020 Christmas Tree topper. The model can be used as a table top center piece as well. As usual I probably forgot a file or two or who knows what else, so if you have any questions, please do not hesitate to comment as I do make plenty of mistakes. Designed using Autodesk Fusion 360, sliced using Ultimaker Cura 4.7.0, and 3D printed in PLA on Ultimaker S5s.

If you can, please use the online documentation found at <http://www.youmagine.com/designs/a-3d-printed-animated-angel-christmas-tree-topper> because those may have been updated. Also, there you can interact and provide praise and/or feedback.
