## Short description:

A pendant light with a procedurally generated, organic form.

## Description:

Surrounded by ancient inspiration, ablaze with cosmic laurels. This pendant light was created through growing tendril-like structures along a parabolic surface. The growth-pattern rules were especially designed to produce an organic, flowing form which is printable without supports. Compatible with the IKEA Hemma or any other standard large household lamp socket (E27). Be sure to check out its complementary tealight holder, [Twinkling Bloom] (<https://www.youmagine.com/designs/twinkling-bloom-tealight-holder-procedural-growth>).

If you can, please use the online documentation found at <http://www.youmagine.com/designs/empyreal-bloom-pendant-light-procedural-growth> because those may have been updated. Also, there you can interact and provide praise and/or feedback.
